

RideShare Delaware is a service of DART First State dedicated to helping commuters find and use more sustainable and cost effective modes of transportation. RideShare Delaware has been serving Delaware residents and employees with their commute needs since 1997.

Funded with a combination of Federal Congestion, Mitigation & Air Quality (CMAQ) and State dollars, the goal of the program is to reduce the number of single occupant vehicles (SOVs) traveling on Delaware's roadways, thus improving our air quality, and reducing congestion. RideShare Delaware works in partnership with local and regional agencies towards meeting Federal Air Quality Standards.
